## Architetture funzionali

MG Fugini Sistemi Informativi 2022-2023 Capitolo 6

## Aspetti BOAT

- · Business: descrive gli obiettivi dell'azienda
- Organizzazione: descrive come le organizzazioni sono strutturate e connesse per raggiungere gli obiettivi definiti dal business
- Architettura: descrive la struttura concettuale di sistemi informativi utilizzati per supportare le organizzazioni
- Tecnologia: descrive la realizzazione tecnologica dei sistemi la cui struttura è descritta dall'architettura

Chanter 4: BOAT Framework

## Relazione tra moduli organizzativi e moduli architetturali

- Allineamento tra requisiti organizzativi e struttura del sistema informativo
- Deve esserci una corrispondenza (mapping) ma non è detto che sia 1-1
